

Brassware

By controlling the entire manufacturing processes from concept design through to prototyping, casting, machining, soldering, polishing, plating, assembly, testing, logistics and after sales service, from our UK facilities, we are able to deliver high quality brassware according to any company's specific requirements.

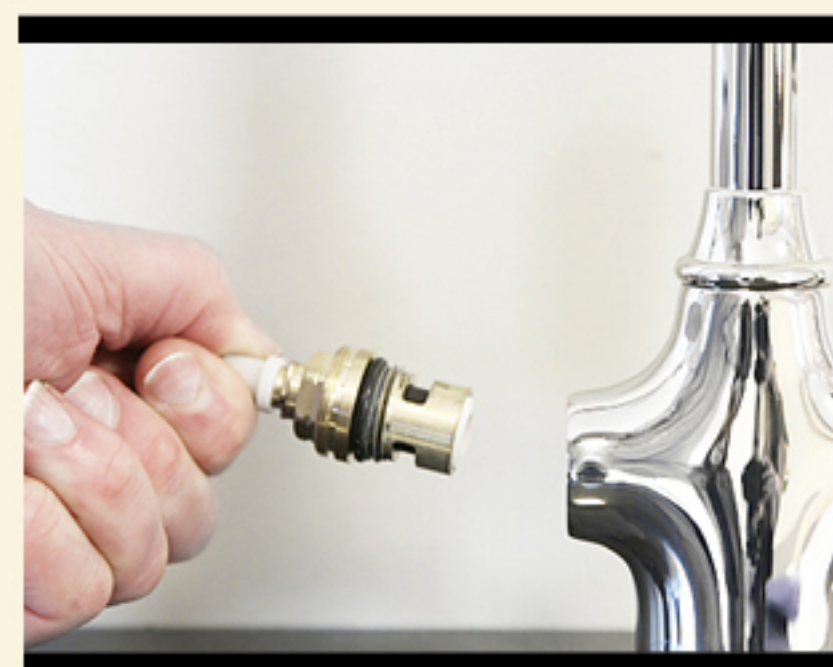

MADE IN UK

Manufactured in the UK and distributed to over 20 countries. For your reassurance, every piece of Perrin & Rowe brassware is engineered from approved materials to exacting standards and hand-assembled within an ISO 9001:2000 accredited, quality assured environment. Recognised all over the world for its stringent, detailed standards and attention to processes ISO 9001:2008 approval is a true mark of international quality.

BRASSWARE

Perrin & Rowe source the highest quality raw materials; all taps are machined or cast from brass.

CERAMIC DISC VALVES

Perrin & Rowe taps are made with ceramic disc valves supplied by the world's leading ceramic cartridge manufacturer. Valves are repeatedly tested up to 500,000 life cycles, (turned on and off with pressurised water), this equates to at least 25 years of use in a domestic installation.

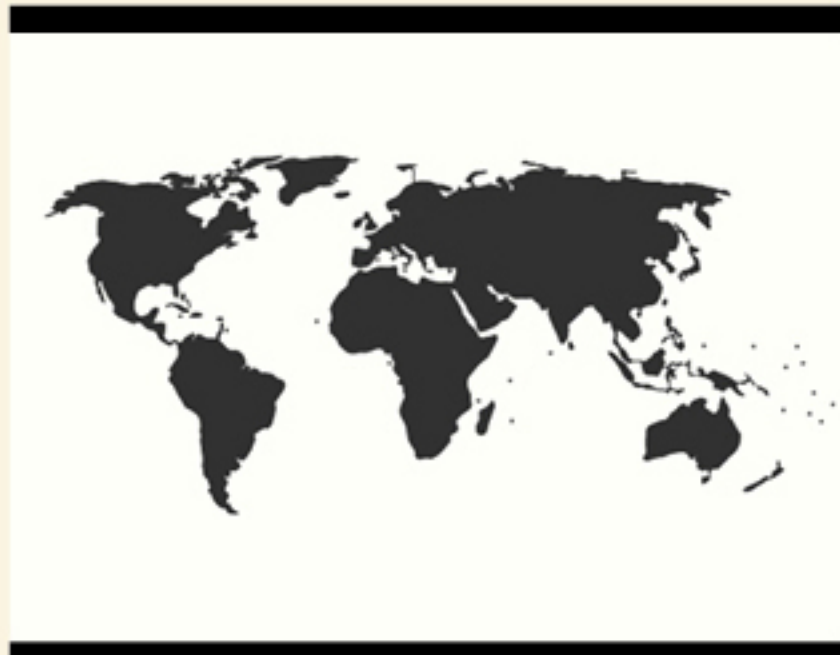

QUALITY HANDLES

Perrin & Rowe source the highest quality raw materials; all white handles are quality glazed porcelain.

MAXIMUM DURABILITY

Perrin & Rowe brassware includes bearing rings and engineering 'O' seals on handles and spouts to ensure maximum durability. This feature prolongs the service life of the product and gives Perrin & Rowe products a stable "wobble free feel".

YOUR MARKET

Specifically manufactured for each market. No additional adapters or converters are required for installation. Purchasing product via your country's distributor ensures you receive product certified for installation in your own country. Perrin & Rowe believes in upholding the international standards required wherever its products are sold. Our international approvals include WRAS, UPC, the Water Quality Mark and the Australian Standard.

PREMIUM PLATING

Perrin & Rowe brassware is plated to a thickness that exceeds the industry standards. This additional plating will ensure a deep, protective coating that is resistant to wear and tear as well as pleasing to the eye.

INDIVIDUAL TESTING

Perrin & Rowe brassware is assembled by hand and each product individually water tested to ensure peace of mind.

P&R ETCHING

All brassware is etched with the Perrin & Rowe insignia.

Chinaware

P&R CHINAWARE

Perrin & Rowe Chinaware Collection includes basins, bowls, lavatories and cisterns and is manufactured exclusively by Perrin & Rowe in its own factory in the heart of English pottery country. There really is no better way to show off your Perrin & Rowe brassware.

CRAFTSMANSHIP

Perrin & Rowe employs a team of skilled craftsmen and women. Our apprenticeship schemes allow skill sets to be kept alive in the UK for the next generation.

LUSTROUS GLAZE

After the casting, a premium glaze is applied, before firing in a kiln three times at temperatures of up to 1200°C to set the glaze and produce a lustrous and highly durable finish, with each piece featuring the Perrin & Rowe insignia in the glaze.
